# Artline

## Hermitage

THINK BEYOND  
THE FRAME!

### GAME OVERVIEW

Artline is a game of associations based on gorgeous paintings from world-famous art museums. The current edition includes 96 original masterpieces licensed from the State Hermitage museum in Saint-Petersburg.

During the game, the players develop a **common grid of cards** on the table and **define common features** for each row and column.

### GAMEPLAY

Each player **starts with 5 cards** in hand, and **the goal is to get rid of them**.

One card is played per turn, and you may:

**Extend**  
a row/column  
and **draw**  
a new card

or

Play your card  
at the **intersection**  
and **don't draw**  
a new card

The card you play has to fit:

Just **one feature**  
of a row **or**  
a column.  
Think of one  
if there's  
none yet!

or

**Both features** of  
a row **and** a column.  
Come up with one  
or even both  
of them!

A table

Here are several chickens, they have feathers, so the card fits the feature of the column.

In the row, there is a card with a chilling dog, so to add the second card there we need a feature... Let's say it's "A table"!

Congrats! You are one step closer to victory now since you don't draw a card!

This painting contains a dog, so it can be added to the column "Animals". It's the first card in the row, so you draw a new card at the end of the turn.

### KEY SELLING POINTS
