# FURNACE

## GAME OVERVIEW

**Furnace** is an astounding engine-building euro game where the players take on the roles of the 19<sup>th</sup>-century industrialists. Throughout several auction rounds, they will be bidding on cards to either develop their production chains or gain instant bonuses, and then resolving their facilities to maximize their profits.

## GAMEPLAY

The game is played over 4 rounds. Each round consists of 2 phases: Auction and Production.

### AUCTION PHASE

Each player has 4 discs with values 1-4 to bid on the cards in **the common row**. The players take turns placing 1 of their discs on the cards until they don't have any discs left.

#### Placement Rules

1. **No discs of the same value** on one card
2. **No discs of the same color** on one card

Then, the cards are resolved one by one in order from left to right.

**The highest bid receives the card.** All other bids get **compensated**: the value of the disc multiplies the compensation.

### PRODUCTION PHASE

Now, the players **manage their own cards** in any order they wish. They may **gain resources**, **process them** into other resources or money, and **upgrade their cards** (🔧) for additional effects.

## GAME END

When the 4<sup>th</sup> round is over, the player with the most money tokens wins.

## GAME VARIANTS

Capitalists change the game rules for their owners. Production chains are for true experts!

## KEY SELLING POINTS

- ▶ Fast and easy to learn, yet hard to master
- ▶ Multi-stage production chains
- ▶ A unique auction mechanism where you profit from each bid (sometimes it's even better to lose an auction)

# DERANGED

## GAME OVERVIEW

**Deranged** is a gothic semi-cooperative scenario-driven adventure game where 3 to 6 players must survive 3 days and nights in a town overrun with unrestrained horrors.

## GAMEPLAY

On their turn, each player plays a card from their hand and resolves up to 2 actions **or** rests and restores their Sanity.

### DURING THE DAY

The first action is free, another one costs 1 Sanity.

The players roam the town:

- Fighting **Monsters**
- Getting rid of their **Curses**
- Fulfilling their individual **Objectives**
- Collecting useful **Items** to **craft stronger decks**

If there is a symbol in the card played, the **Time token** is advanced 1 space forward. **When it crosses the border**, not only the **Time of day changes**, it also triggers the next **Scenario Chapter**.

### VICTORY AND DEFEAT

A player wins if at the end of the last Night all of the 3 conditions are met:

1. They don't have a Deranged token,
2. They have no Curse cards,
3. Their Hero is on the Enchanted Gate space.

**OTHERWISE, THEY LOSE.**

Get a **Night mission** which must be completed until the next dawn

### INSTANT DEFEAT

If at any point during the Night all Heroes are turned into Deranged, all players instantly lose.

### DURING THE NIGHT

Each of the 2 actions costs 1 Sanity. On top of everything else, each player reveals their random **Night card**, and they either:

**or**

**Become Deranged!** From now on, they become more powerful, play by the upside-down side of the Action cards, and don't need to rest,

But the only way for them to turn back is to **kill a once fellow Human Hero!**

# CUTTERLAND

## GAME OVERVIEW

**Cutterland** is an innovative tableau-building drafting game where you get to cut the cards — literally cut them into pieces and compete on creating your own fabulous lands. You will cut the cards into pieces, distribute them between the players, and score victory points for the creatures inhabiting your land. Whoever has the most attractive land at the end of the game, wins.

## GAMEPLAY

As an Active player you will get to cut a card. You may cut it whichever way you wish, but keep in mind that other players will draft pieces in clockwise order and **you will take the last piece**.

There are **3 types of landscape** (plains, moors, and wetlands) and **6 kinds of Monsters** (dragons, krakens, turtles, goblins, centaurs, and frogs).

The players attach the drafted pieces to their lands keeping in mind that they'll score VPs at the end as follows:

The more **goblins** you have in an area, the more points you score.

**Centaur**s like space. They score VPs for the size of the area they are in.

**Turtles** like to be the only one of a kind in the whole land. Two of them will score less VPs, three — nothing at all.

Nobody likes **frogs**! Each frog in your land is -2 VPs unless it's devoured by your predators!

At the end of the game, you'll decide whether it'll be a wall protecting your centaur or a bridge helping the kraken devour the second frog.

**Krakens** don't mind eating frogs. They will eat everyone around them unless their target is in a tower or behind a wall.

This bridge connects the moors!

0 VP  
Too many turtles!

7 VPs  
for the pair of dragons

**Dragons** score points only for being in a pair within an area. Dragons will also hunt in their area. One of the dragons will eat your goblin at the end unless you save him later!

## END OF THE GAME

Each player gets to cut a card three times and after (3 × the number of players) rounds the game is over and the player with the most VPs wins.

## KEY SELLING POINTS

- ▶ A breakthrough concept of actually cutting the game components
- ▶ A tableau-building game full of tactically difficult choices deep enough for hardcore gamers
- ▶ Fantastic throwback pixel artwork for the classic gamer

# SPYFEST™

## GAME OVERVIEW

**Spyfest™** is a deduction game of associations played over a series of rounds where one player becomes the Spy and two teams try to guess the Spy's identity. The Spy will be trying to come up with a way of **describing a combination of their Character and the Keyword** so only their team can understand who the Spy is talking about.

## GAMEPLAY

Players split up into 2 teams. At the start of the round, the team whose turn it is chooses one player to be their Spy. The Spy draws 2 cards: a Character and a Keyword.

**Only the Spy knows** who the Character is. Whichever team guesses it after the Spy's description, scores VPs.

**The Spy and the Spy's team know** the Keyword. During their description, the Spy should refer to the Keyword to increase their team's chances.

**Everyone knows** the full lists of Characters and Keywords for the whole game.

The Spy starts saying:

*"The Character doesn't need this Keyword at all, but they definitely used something similar, of the same shape and function. What's more, they were famous for it."*

At any point during the game, any player may stop the game to try and guess the Character. **Regardless of who stopped the game, the intercepting team is always first to make their guess.** The sooner the Character is guessed, the more VPs are scored and the farther the team's standee is advanced.

Both teams apply additional effects from the Red Carpet Line cards they stop on.

They also have identical sets of single-use Action cards that provide a significant advantage.

## ROUND END

The teams have **3 shared attempts** (consisting of **1 guess for each team**) to reveal the Spy's identity.

## GAME END

Whichever team makes it to the end of the Red Carpet Line first, wins!

## KEY SELLING FEATURES

- ▶ A detective team-based party game unlike any other!
- ▶ A completely independent Spyfall spin-off: the same challenging atmosphere with totally different mechanics
- ▶ Hilarious artwork, 80+ unique illustrations

# ARCHITECTURA

## GAME OVERVIEW

**Architectura** is a highly interactive city-building euro game.

The players take turns playing the cards to the city grid of blocks and streets. Each card has its own value, and it may change during the game because of other cards.

## GAMEPLAY

Each player takes a deck of 12 cards and 2 protection tokens of the chosen color. They shuffle their decks, place them face down, and take 3 topmost cards in hand.

### DURING YOUR TURN

- 1 Play a Card...** ...to start a new street (the 1st or the next one) **or** ...to the right of an occupied space **or** ...over a destroyed card

### 2 Compare the Values

If the value of the card to the left is...

...higher, its value **increases**.

*The customer service in the Store is way better than on the Market!*

...lower (but not 2 times lower), its value **decreases**.

*The Park doesn't seem so spacious anymore with the Mansion next to it!*

...two or more times lower, that card is **destroyed**. Flip it, but leave it on the same space.

*There is no place for a Barn near the Temple!*

...the same, nothing happens.

*Good match!*

### 3 Resolve the Effects

There are 3 types of effects: **immediate**, **postponed**, and **"At the end of the game"**

### 4 Draw (a) Card(s) up to the hand limit

### ADVANCED GAME

In the basic game, all players use identical sets of cards — the only difference is their color.

The Advanced Variant suggests 6 additional cards, different for each player. The players may customize their decks by replacing several or all 6 basic cards and perform more impressive combos during the game.

### END OF THE GAME

The game ends when 8 blocks and the number of streets equal to the number of players are filled with buildings. The players resolve all *At the end of the game* effects, sum up the current values of their cards in the city, and the player with the most VP wins.

# ARTLINE

## HERMITAGE

### GAME OVERVIEW

**Artline** is a game of associations based on gorgeous paintings from world-famous art museums. The current edition includes 96 original masterpieces licensed from the State Hermitage museum in Saint-Petersburg.

During the game, the players develop a **common grid of cards** on the table and **define common features** for each row and column.

### GAMEPLAY

Each player **starts with 5 cards** in hand, and **the goal is to get rid of them**.

**One card is played per turn, and you may:**

**Extend** a row/column and **draw** a new card

or

Play your card at the **intersection** and **don't draw** a new card

**The card you play has to fit:**

Just **one feature** of a row **or** a column.  
Think of one if there's none yet!

or

**Both features** of a row **and** a column.  
Come up with one or even both of them!

This painting contains a dog, so it can be added to the column "Animals".

It's the first card in the row, so you draw a new card at the end of the turn.

The sky

Feather

A person holding something in their right hand

Children

A table

Here are several chickens, they have feathers, so the card fits the feature of the column.

In the row, there is a card with a chilling dog, so to add the second card there we need a feature... Let's say it's "A table"!

Congrats! You are one step closer to victory now since you don't draw a card!

# VICEROY

## GAME OVERVIEW

**Viceroy** is a deep strategy game for 1 to 4 players that can be played in less than an hour!

By building their own pyramid of power, players will manage the various aspects of the fantasy empire: from science and magic to laws and military. Characters placed at lower levels of your pyramid do ordinary tasks and bring modest benefits. These characters are the people who form the base of your empire. To place a card on the next level of a pyramid, it needs to be supported by two cards of a previous level.

Characters placed at higher levels of the pyramid cost more but usually give better rewards. This represents appointing characters for prestigious administrative positions or giving them more freedom to use their valuable skills.

# CASSIOPEIA

## GAME OVERVIEW

**Cassiopeia** is a strategy euro game based on the use of double-sided cards and resource management.

While taking turns, players hire different specialists, process the effects of their actions, collect resources, and optimize their logistics to be the first who terraforms all 7 planets each player was assigned to colonize.

## GAMEPLAY

### COMMON AREA

#### Specialists

At the beginning of each round, each player assigns their player token to one Specialist of their choice. The players then proceed with their individual turns in the initiative order (from left to right).

At the end of each round, all used Specialist cards are flipped, all unused Specialists are granted a coin.
