## GAME OVERVIEW

Lava Land is a juicy and fast-paced racing game where the players will be quickly picking up dice from the rolled pool in **real time** and resolving the effects of their hasty combinations.

**Each player's goal** is to escape the blazing lava and reach the rescue boat with enough food and as many relics as possible.

It's another day of...  
**RUN!**

## ESCAPE THE LAVA

If it reaches your Character, you're out of the race, but you keep playing!

## PLUCK BANANAS

Get enough food for your journey back home

## COLLECT RELICS

If there are several survivors, the owner of the most relics wins!

## GET TO THE RESCUE BOAT

Head to safety with everything collected on the go!

## GAMEPLAY

### 1 Picking up dice – Simultaneously

All dice are rolled, and each player must take any three of them – one at a time, with one hand only – as fast as they can.

### 2 Resolving your combination – Taking turns

Each player resolves all effects of their combination:

- ◆ 2/3 symbols of a type – Advancing 2/3 spaces along the corresponding track or gaining an Action card
- ◆ 3 single-colored dice – You've activated a trap!
- ◆ 3 different dice – Lava advances!

## GAME END

If you have 7 bananas, you may enter the rescue boat. When all players are either in the boat or out of the race, the survivor with the most relics wins.
