GAME OVERVIEW

Furnace Duel is a 2-player follow-up to the popular **Furnace** board game. It is playable both in standalone and campaign modes, in which you compete for global industrial domination in a series of games played on six different boards.

GAMEPLAY

The core gameplay in **Furnace Duel** is the same as in the base **Furnace** game. You bid for **Company cards**, get them or receive compensation, then use your cards and manage resources in order to gain the most money by the end of the 4th round.

However, here's **no compensation effect** on top of the **Company cards**. You receive compensation by **claiming routes (1)** on the game board. The value of your disc shows how many times you may use the effects of connected **Cities** (in any order or combination). At the beginning of the game, the only available tracks are the ones leading from the **City** corresponding to the card in question, but as your network grows, you gain access to new tracks and more lucrative **Cities**.

Each of the 6 game boards has special rules and features.

In the **Campaign mode**, you accumulate **Campaign points** awarded for winning a game and for fulfilling **Achievements**, both general and board-specific.

The runner-up gets a board-specific bonus that gives them a bit of the upper hand in the following games.

Cards can be upgraded with the city effects.

There are **Shipping companies (2)**, which are one-shot cards with a neutral brown disc printed on them – it is considered a bid of a neutral player.
