## IVY

The Bush and the Rock can use all anomalies as portal 4. When activating such an anomaly, they get an additional movement.

## SEAWEED

The Bush can enter the ocean to come out on a space on the opposite side of the island. In case of encounter of the Bush and a captive, OP crosses out any one fruit on their board.

## FLOOD

The Wave can move and attack in any order in one action. It can move into lakes and attack players next to them.

## INSANITY

If a captive visits any anomaly or any mirage (even if it was done safely), they additionally lose -♥.

## DEITY

OP can take up to 5 actions this turn.

## LITHOPHYTES

In addition to their regular actions, the Bush can push a captive, and the Rock can encounter a captive and attack them, so they lose -♥ and -⚡. The Rock has to move to different spaces.

## MAGNET

Instead of pushing, the Rock can move a captive from an adjacent space to the space it is on, activating it if desired.

## HURRICANE

When the following spaces are visited by any piece:

- **Escher knots:** OP chooses the space a piece exits to,
- **Portals:** OP chooses the Portal the piece exits through,
- **Lakes:** captives cannot refuse activation.

## DEAD END

Captives cannot activate spaces with fruits, camps and oracles.

## FOG

During their turn OP does not announce their action if an encounter or any interaction with the captives does not occur.

## FATIGUE

Before using a fruit bonus a captive loses -♥. When skipping a space during movement or moving safely -⚡.

## HAIL

If a captives health is not full when attacked by Wave, they additionally lose -♥.
